

# Basic steps for using HyHyve

## What is HyHyve?

HyHyve is a virtual venue for connecting and engaging. Attendees can move with their avatar in and out of conversations just like in an in-person event and focus on connecting with like-minded people.

Try free demo [here](#).

## Supported web browsers and devices.

**Microsoft Edge** on MS Windows, MacOS and Android OS; device types: desktop, tablet and mobile.

**Google Chrome** on MS Windows, MacOS, Linux and Android OS; device types: desktop, tablet and mobile.

**Mozilla Firefox** on MS Windows, MacOS, Linux and Android OS; device types: desktop, tablet and mobile.

**Apple Safari** on MacOS and iOS/iPadOS; device types: desktop, tablet and mobile.

## Joining the HyHyve session.

**Click on the link provided by organizers** of the conference and the HyHyve session will open in your web browser. You will be asked to enter your name and email address. Then you must copy the code you received by email, confirm and finally you can join the HyHyve session.

## Setting up your Name, Camera and Microphone.

Follow these five steps [here](#).

## Basic functions to communicate and interact in virtual space.

See the instructions [here](#).

## Leaving the HyHyve session.

To leave the current HyHyve session, click on “Menu” icon at the bottom of your screen, then click “Leave Space” (red button) on the left. Next you can click on “Profile” on the left and click “Logout” (red button).

**Attention!** It is highly recommended to close Zoom meeting when joining HyHyve session, because the camera cannot be used by two applications simultaneously. Or you can run HyHyve on another device.
